

KYUNG DO

## » Control Units & Accessories

- Plastic Pistol grip that has strong durability.
- With second gear, quick isotope withdraw.
- exposure diminishing and operation efficiency elevation.

1. Model : KRC-2 type / Second gear
1. Model : KRC-1 type / First gear

### Remote Control KRC-2

A control unit is comprised of the hand crank and gearbox, a pair of control housing, a teleflex drive cable and a safety connector assembly.

## » Source Guide Tubes & Stops

Consisted of soft stainless steel tube (polyvinyl protection) Strong durability. Source stop and connector are attached.

Source guide tubes are flexible stainless steel tubes with a protective polyvinyl covering and one available to fit all SENTINEL projector units. Intermediate and termination source guide tubes, which are inter connectable to provide required length, are available. The intermediate section tube has a male connector at one end and a female connector at the other and can be used with a disconnectable source stop as a guide tube termination.

## » Collimators

TSC-19 & TSC19P

- It's small and light .
- Shielding capability is good because shielding material is made of tungsten
- It's suited for the use of Ir-192 and Co-60 and possible to connect Guid tube directly.
- It's also suited for the use of short source distance because TSC-19, collimator's side way is manufactured with 120 ° Conicla Angle.
- TSC-19P is suited to examine big pipe or small tank's inner part
