## » DARK LAMP

This adjustable lamp provides direct or indirect illumination. The double swiveled shank and bracket permit it to be swung or tipped as needed.

Power : 220V 10W

## » LEAD MARKER & CASE

These precision lead numbers and letters with sharp, smooth edges are ideal for producing clean, well defined images.

Lead marker case is essential for the safe storage of lead markers. The 40 compartments keep the A-Z and 0-9 characters separate from one another and provide easy location of the required letters or numbers for each identification
